

Instructions for: 89421 SNOW RAKE ASSEMBLY

12.646

ASSEMBLY INFORMATION:

- Check parts against parts list.
- Read instructions completely before starting assembly.

SNOW RAKE ASSEMBLY INSTRUCTIONS:

STEP 1: Insert Snow Rake angled tube (A) between top edge and tab on blade (B). Align holes, secure with bolt (C) lock nut (D).

STEP 2: Align slot of roller (K) at blade (B) edge and push roller onto blade until roller rotates. Repeat other side.

STEP 3: Attach FLAT end of brace (E) to blade (B) by aligning holes and securing with bolt (F) and lock nut (D). Repeat for other side.

STEP 4: Attach CURVED end of braces (E) to angled tube (A) by aligning holes and secure in place with bolt (C) and lock nut (D).

STEP 5: Squeeze legs of snap button (J) together and insert into the swaged end of the extension tube (H). Repeat operation for other extension tubes.

STEP 6: Slip poly grip (G) on the end of one extension tube (H). NOTE: Grip will go on easier by heating in warm water.

STEP 7: To assemble rake for use, depress snap button (J) on pole, insert extension tube into angled tube end so snap button pops through hole. Repeat with extension tubes (H) until complete.

SNOW RAKE AND POLE PARTS LIST			
Ref. Letter	Part No.	Description	Qty.
A	61.002	Angled Tube (Snow Rake)	1
B	61.008	Blade	1
